Teacher Evaluation Documents

A Practical Guide for Teachers and Evaluators

Introduction

Observation and evaluation is a cooperative and collaborative process. The Sutter County Superintendent of Schools (SCSOS) is committed to entering into this process in the spirit of communication, collegiality, and support. This process is intended to be a positive experience leading to the ultimate goal of the highest quality instruction for our students.

The following guide is intended to enhance stakeholder understanding of the observation and evaluation process.

The Evaluation of Teaching Performance document and the Teacher Performance Agreement will be placed in the teacher's personnel file after the Evaluator and Teacher have discussed and signed the forms. Observation forms will not be placed in Personnel Files.

The California Standards for the Teaching Profession (CSTP)

The California Standards for the Teaching Profession were written by a representative group of educators with the intent of setting forth standards for professional teaching practice in California. The six standards represent a developmental, holistic view of teaching and are intended to meet the needs of our State's diverse teachers and students. **The CSTP are listed on a matrix in this packet.**

Educators are still required to comply with the mandates of Education Code 44662, the Stull Act. This document fully complies with the Stull process in that it establishes standards of expected student achievement and evaluates certificated employee competence in the areas of pupil progress, instructional techniques and strategies, adherence to curricular objectives, and maintenance of a suitable educational environment.

Pages in this packet are color coded as follows:

- *Yellow- Informational*
